

SALES PROPOSAL FOR CargoLDN

Terms and pricing.

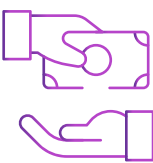

To meet your business requirements, we propose a two-tiered model:

The first tier is designed for your self-employed drivers. They will have access to our driver products, either Wise Invoicing or Beamin’, depending on their specific needs. This service comes at no direct cost to **CargoLDN**, as the drivers will be invoiced weekly for these products at a rate of either £15.00 or £20.00.

You are required to keep your product selection above 90% otherwise there is a £500 per month system fee, as explained in your 12-month contracts. A mandatory rollout will ensure you wont pay for this.
